EVENT OUTLINE

“Transforming Lives – Creating a new revolutionary self”

26th April (Wed) 6PM – 8.30PM

C.V.NRMH, C-209, 2nd Floor, Blue Cross Chambers, No.11, Infantry Road Cross, Bangalore

In the event *Transforming lives – Creating a new revolutionary self* hosted by Aashwasan and BMA, Aashwasan brought into the fore, the role of free will of self in realizing maximum destiny. There is a minimum destiny every human being reaches even without stretching himself. But with free will, a human being can realize his maximum destiny. There is a self - healing power in all of us, but we do not access it because we either do not believe in ourselves or do not know how to access it. Aura reading, Aura healing and harmonization offered by Aashwasan brings a person closer to one's self or soul and brings to the access of a person all those hidden potential and skills about a transformation in one's life.

Later, clients shared their experience of transformation at Aashwasan – Nanjunda, a computer professional's experience was played in which he shared how healing helped him fight cancer and rejuvenated his entire life. Lee Sim, a Malaysian entrepreneur who runs a company called Netpartners was in Bangalore for a business presentation at the Infosys, came to the event and related her experience at Aashwasan. She shared how her relationships with her daughters and mother and her professional life changed after the first aura healing session. She also related how she could handle various other issues in her life.

The response from the participants was very good and people showed immense interest in the services offered by Aashwasan.

Feedback from the participants:

“ Very different, unique, and somehow preordained. Would like to experience more, help self and others.” *Mr.L.G.Jyothishwara – entrepreneur.*

“Very pleasant & empowering experience.” *Ms.Khurshid Khoree – Counsellor from Sparsh Foundation.*

“It is very Interesting, informative and excellent experience.” *Dr.R.Dorai from Hartech Consultants.*
