

EVENT OUTLINE

CEO Network Meeting – The Universe is with you 23rd March 2007 (Fri), 3:00 PM – 6:00PM at Royal Orchid Hotel

In the event **CEO Network Meeting – The Universe is with you** hosted by Aashwasan and conducted by Mr. R. Ravi – Chief Adviser of Aashwasan talked about Transformative Leadership - transformative because by adopting certain patterns, the leadership can change the way individuals behave in an organization; Transformative because we want to emphasize the phenomenon of leadership, not the leaders. The emphasis of our course is on fluidity. A leader has to be fluid like water. Water takes the shape of a container. It has force, but it adapts completely to the environment that it is in. It does not have any preconceived notions.

Participants included entrepreneurs, CEOs, senior members of various organizations. During the event they were taken on a journey of dreaming, discovering, doing and giving. These are the four aspects of Transformative leader. To function as a transformative leader one needs to go through this process starting from dreaming and arriving at giving. To become a transformative leader one has to begin by giving. Members reached got a glimpse of their own infinite potential.

One ray club that offers support to all those who wish to realize their dreams was launched. As a token of the launch participants were also offered love and bonding workshop on the subsequent days to take them closer to their dreams. All participants experienced a deep transition taking them closer to their dreams in love and bonding workshop.

Some participants verbalized their experiences and they had this to say:
