

Aashwasan Foundation had a field day at TCS Marathon on May 21, 2017

Aashwasan Foundation team and well-wishers participated in TCS Marathon on May 21 to spread the word of Hope that Aashwasan Science™ stands for, and raised 1,42,000 INR in funds to help the foundation to reach out to the underprivileged. Painted in Gold, with logo and values etched on their faces, the runners attracted curiosity and intrigue; many clicked photos with them and some heard stories of miraculous breakthroughs in various areas of health and wellbeing (including undiagnosed and untreatable conditions) brought by Aashwasan Science™. On one hand the RJ, who was playing to the frenzy of the crowd, invited the golden faced members on to the stage to speak about Hope, on the other hand, the Aashwasan members caught the attention of the media who featured them in newspapers and TV channels. Some ran for the foundation and some contributed their bit through donations. A joyous togetherness was the highlight of the day.
