

Aashwasan

Creating a better World for All

Rashmi Aiyappa, the Spiritual Scientist, Inventor and Founder of Aashwasan Science™ was recently recognized as the **Iconic Leader for creating a better world for All** by the Women Economic Forum (WEF) on 12th May 2017 at New Delhi. An associate of ALL Ladies League, the Women Economic Forum is a global conference to foster empowering conversations and connections among women committed to foster constructive change in ALL walks of life.

◆ Rashmi Aiyappa's discoveries, inventions and achievements

A visionary, whose dream is to see a disease-free world, founder of a revolutionary science who is on a mission to transform people's lives, Rashmi Aiyappa stands as hope. She was born with an ability of knowing people in their truest essence, knowing them as they are born and are meant to live. She sees individuals beyond their mere physical existence; she sees their soul's journey, thus witnesses all the experiences that a soul has carried into this lifetime and how it impacts the individual's living at all levels of existence – physiological, psychological and spiritual. She experiences every individual's life as if it were her own, thus knows how an individual experiences his/her life.

Her inborn abilities and the entire life's experiences of first 30 years of life brought in a significant science into life, a science that understands the human experience, a science which understands the complete body-mind-soul mechanism. This is Aashwasan Science™. It is a science that was discovered with mysteries hidden in ancient times, secrets about timelessness and theories about life after death - one science that encompasses mechanism of all life forms into a single dynamic format demystifying root cause of all unknown, may it be suffering from a disease, struggling in situations of life, stuck in a relationship or not knowing yourself at all.

She invented energy based tools and techniques, equipped Aashwasan practitioners to access them through her at the unconscious and render these tools and techniques as services to people in need. The tools and techniques are spiritual in origin and experiential in nature thus brings holistic solutions to any issue that stops people from experiencing their optimal well being. As all the tools and techniques are energy based, she can reach anyone, anywhere and anytime in the world through distant services.

In last 12 years, using the inventions of Aashwasan Science™ has brought unprecedented breakthroughs in 29 areas of health and wellbeing, transforming lives of thousands of people across the globe in the areas of developmental disorders, genetic disorders, life style conditions, non communicable diseases, physiological, psychological and psychiatric conditions.

Root cause analysis using Aashwasan Science™ has even broken barriers that threatened organization's survival, development and growth. Movements such as-Humane Science was brought into being that showed profound transformation impact in learning and education.

Aashwasan was started in Malaysia in 2006. Various countries such as Srilanka, United States, Australia and Europe have presence of Aashwasan through its patrons and clients.

On a sublime mission to heal the world by restoring humanity to their original creation she has devoted her life to create a better world for All.
