# Takeaways

- Get a deeper view of your role as an educator
- Change in perspective of yourself
- Experiencing inspiration and purposefulness within
- Awareness of the limitless human potential

# About

Education is not limited to marks, awards and trophies. The real purpose of education is to make one self aware, discover one's uniqueness and experience joy, curiosity and freedom from within. And the role of teachers is to facilitate such an experiential journey of learning in students. However, decades of routine and monotony in learning and teaching have made the experience of authentic education more an aberration than a norm.
