

On a mission to reinstate Hope...

What is nature's own is constant, and what is constant can only be the truth. It's this constant value that brings deep assurance and confidence in life. It brings the experience of hope. And it is this experience that Aashwasan enables people to connect to.

Aashwasan is a space in nature where people come to seek the truth behind their experiences and the mechanism behind the happenings of their lives. Its founder and spiritual scientist, Rashmi Aiyappa, brought forth Aashwasan Science® to the world with a mission to preserve nature in lives and unveil the truth of human mechanisms so that humanity lives its glorious creation, allowing nature to revive itself. With this mission in our hearts and souls, we march forward, taking one step at a time, reaching one life at a time, to make every moment an experience of well-being and purposefulness.

We are here today to share with you our journey over the last few months. Wishing you all a new beginning in the year 2023, we take you through some special moments of Aashwasan.

With this mission in our hearts and souls, we march forward, taking one step at a time, reaching one life at a time, to make every moment an experience of well-being and purposefulness.

A GLIMPSE INTO THE JOURNEY OF RASHMI AIYAPPA

Rashmi Aiyappa started her journey with a larger-than-life mission. She experiences the quantum phenomenon (that forms the underpinnings for mechanisms of the universe as described

by the physical and objective sciences) and its experiential manifestation in life forms. For her, life is a multidimensional reality that unfolds the cause-and-effect phenomena in nature. These experiences paved the way for the invention of Aashwasan Science®, an energy-based technology that intends to bridge the gap between universal and physical sciences.

As a spiritual scientist, Rashmi Aiyappa constantly invents tools and techniques to bring well-being and empowerment to human beings, organisations, and society. Aashwasan offers her inventions and knowledge of human mechanisms to help people break free of limitations of body, mind, and soul, thereby eliminating their mental conditioning, physiological limitations, and spiritual conflicts, and restoring them to their original creation.

Over the last 17 years, Aashwasan Science® has been the harbinger of hope to many who found solutions for the most challenging and intractable conditions of health and well-being, such as Cancer,

Developmental disorders such as Autism, Neurological conditions such as Epilepsy, Neuropathy, Paralysis, Genetic conditions such as Down's Syndrome, Diabetes Type I, Psychiatric conditions such as Schizophrenia, Addictions, lifestyle issues such as RSI, cardiovascular diseases, many undiagnosed and untreatable issues of body, mind and soul. Aashwasan has reached out to 200,000 individuals globally, and her services have impacted more than 10,000 individuals worldwide.

Organisations have been supported with services that identify and address the deep root cause behind issues with performance, vision alignment, and employee happiness, thereby reinstating hope and direction in them.

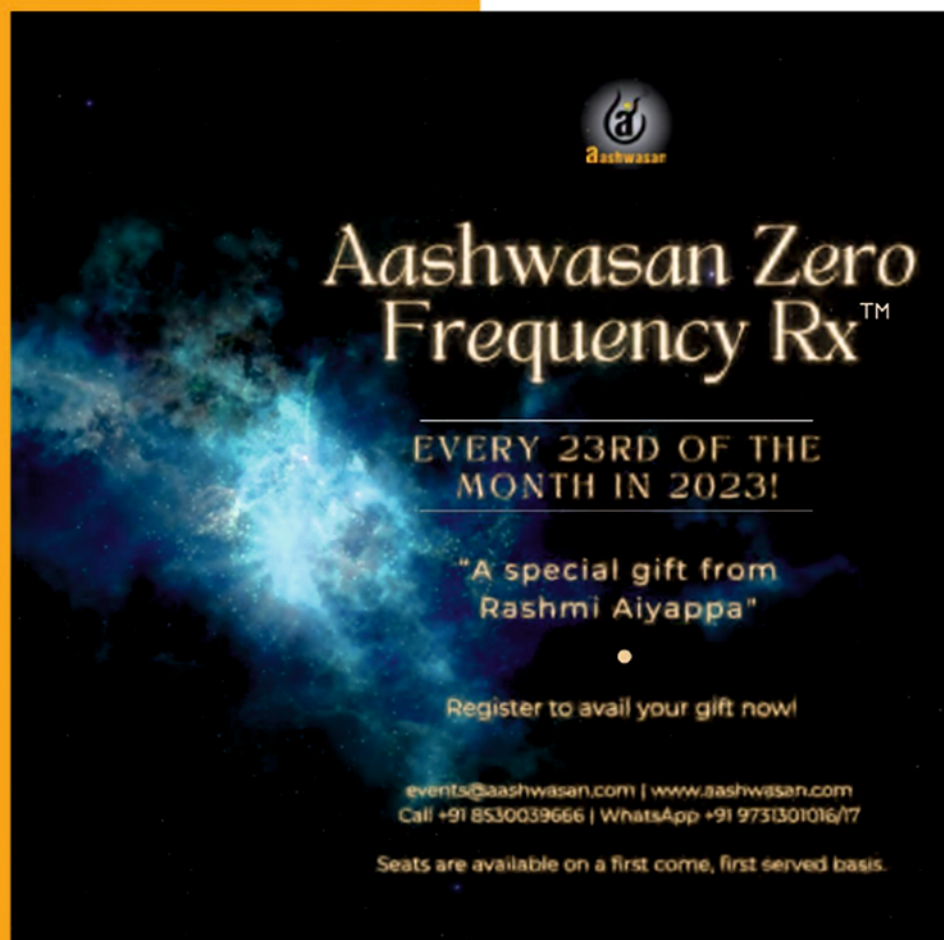

Ms Rashmi has been recognised as an Iconic Leader by the Women Economic Forum and as one of the 50 most impactful social innovators globally for promoting peace by World CSR. She was awarded the NGO Excellence Awards for Social Consciousness as a "Social Innovator" and the Global Peace Leadership and Excellence Award at the World Peace Conference. She was honoured with the Mahatma Award in 2020 for being an impact leader and change-maker in the difficult times of the COVID-19 pandemic. Under her guidance, Aashwasan work was honoured with the Mahatma Award for two years (2019 and 2021) for its contribution towards sustainable development goals as established by the United Nations.

Rashmi Aiyappa continues to invent and bring forth interventions to connect people to the truth of their existence and make love the core experience of their lives, as she believes love is where it all begins...

Thank you, the entire Aashwasan practitioners, who worked behind this event to make a beautiful moment of truth. No words yet again to Rashmi for making this happen.
