Zero Frequency — Experience The Nothingness

Nothing that happens in our life is a coincidence. Life may appear random, but it is not so. There is a reason behind every happening. There is a cause behind every experience, sometimes known, sometimes unknown. There is a reason why we go through confusions, fears, diseases, mental trepidations, unfulfilled relationships, stressful situations, spiritual dilemmas and innumerable nagging questions about our life, all the time.

Life offers many paths and avenues to reach oneself, to experience who we are, but at times we feel stuck and are unable to move ahead due to the layers of conditioning. At times we question the very reality of what we see and experience. What does it do to us? Have we ever wondered or pondered about this? Amidst the array of emotions and feelings, how does one gauge the truth of one's reality? How can one travel closer to the realms of one's knowing? What is the door to that inner world which we so wish to discover?

A science was discovered with mysteries hidden in ancient times, secrets about timelessness and theories about life after death. It's a science that encompasses mechanism of all life forms into a single dynamic format, demystifying root cause of all unknown: it could be suffering from a disease, struggling in situations of life, stuck in a relationship or not knowing yourself at all. It's a space that has an answer beyond religion, belief, faith, logic and philosophy; it is an experience. It is a science that the world has been waiting for. To bring this to every individual in this world, Rashmi Aiyappa found-

ed Aashwasan.

Aashwasan is a global revolution which brings love and happiness in our world. Rashmi Aiyappa is a renowned spiritual scientist who offers her discoveries to bring forth for the first time in the world, a unique science of Life's mechanism.

To facilitate a path for collective transformation, Rashmi Aiyappa offers Zero Frequency events all over the world. Connection with this frequency, even for a moment, can bring a profound change in life forms. All these changes happen at the unconscious level. Experiences transform, transforming the manifestations on the body and mind.

A glimpse into some of the experiences shared by the participants in their words: "This is the first time in my life that I experienced such peace"; "It was just an experience that I can't express in words"; "I felt as if I was taken to a very deep world where there was nothing but warmth and peace"; "I thought I had resolved my pain 15 years ago; today I found that I haven't resolved it yet. It is amazing that I could get in touch with this reality"; "I found my purpose." "I feel I belong"; "I felt oneness. I don't feel alone," and "I felt love. It's beautiful!"

Rashmi Aiyappa is conducting an experiential session Zero Frequency — Experience the Nothingness on December 15 at Hotel Royal Orchid, Bangalore. To know more, contact 9731301016/17/20; mail to events@aashwasan.com or visit www.aashwasan.com Confirm your presence for an experience of a lifetime. Limited seats available!
